

Datasheet

Couplers

Version: 05.12.2016

- Dual window singlemode fused fiber coupler 1×2 to 1×16 available in all desired proportion-ratios
- Dual window multimode fused fiber coupler 1×2 available in desired proportion-ratios; also available as mode-indifferent lens coupler

WDM

- Wavelength multiplexer on fused fiber coupler basis 1.3/1.5 µm one-, two- and three-stage
- High isolation FWDM 1.3/1.5 µm
- Monitor FWDM 1.3 & 1.5/1.61 to 1.64 µm to use in remote fiber test systems
- Multimode high isolation FWDM 0.8/1.3 µm
- All components are assembled according to customer specifications
