Fanout Cable

Version: 05.08.2019

Versions

- 8-fold, 12-fold and 24-fold fanout cable assembled with MPO connectors one side and any common connector type on the other side
- Flame-retardant and halogen-free jacket
- Max. fanout length 5 m
- Protection and cable laying tube on request
- Assembly to ribbon cable on request
- Additional options on request

MPO assembled to fanout cable

Design – Cable Divider

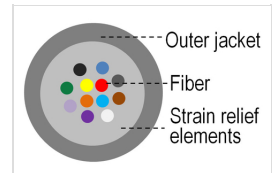

- Cylindrical metal sleeve to protect the transition to the single breakout cables and to attach the pull cord, made of hollow tubing with strain relief
- Covered with shrinkable tubing for mechanical protection and to maintain the bending radius
- Optional protection and cable laying tube

MPO assembled to fanout cable

Advantages

- Fanout cables in any length, one side or both sides pre-assembled
- 100% quality control, each product provided with test certificate
- Time saving during installation
- Assembly on location not necessary
- Direct connection to 19" distribution technology possible

Fanout cable, cross section

Fiber Types

- E9/125 μm (OS2)
- G50/125 μm (OM2/OM3/OM4)
- G62,6/125 μm (OM1)
