

Datasheet

Reel Case

- Robust case for receiving measuring fibers (launch fibers)
- Measuring fibers are suitable for testing active devices
- Enables simulations of real optical fiber

Scope of Delivery

- Assembly with all fiber optic connectors in our product range
- Measuring report of Interferometer- and OTDR measurement as well as an inspection plan included
- Several measurement fibers in one case available
- Single breakout cable length up to 4 m; higher on request

Available Fibers

- V-E9/125 μm (OS2 BI, Corning® SMF-28® Ultra)
- V-G50/125 μm (OM2)
- V-G50/125 μm (OM3 BI/OM4 BI)
- V-G62,5/125 μm (OM1)
- Special fibers on request

Advantages

- Easy transport with optional trolley reels
- Lightweight
- Several fibers in one case

Version: 21.06.2019
