

# Datasheet

## Uniboot Duplex Patch Cord with flexiFanout

- Duplex breakout patch cords can be delivered in any length and assembled with all connector types
- Uniboot-Duplexkabel divided with flexiFanout
- For assembly of Uniboot connector and standard simplex and duplex connectors
- Different lengths of single elements and connector types possible
- Indoor cable
- Strain relief element: Aramid
- To reduce the cable load compared to duplex patch cords
- Easy polarity switching by means of simplex connectors

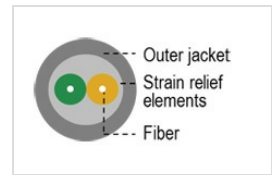

Version: 04.12.2019

Uniboot Duplex Patch Cord with flexiFanout Duo

### flexiFanout Duo

- Flexible dividing element made from plastic with integrated bend protection
- To divide the uniboot duplex patch cord into 2 single elements

Uniboot Duplex Patch Cord cross section

### Properties

- Halogen-free, flame-retardant
- Non-corrosive or toxic combustion gases
- Convenient installation and ideal bending radii on all levels
- Cable lengths according to customer request

### Jacket Color

- Yellow (OS2)
- Aqua (OM3)
- Heather violet (OM4)
- Others on request

### Fiber Types

- E9/125  $\mu\text{m}$  (OS2)
- G50/125  $\mu\text{m}$  (OM3/OM4)
