

**YOUR SPECIALIST FOR
FIBER OPTIC CABLING**

PRECISE. SMART. CUSTOM-MADE.

What does it take for a cable to become a **Sachsenkabel**?

It takes more than 29 years of experience in optical communication and products as well as solutions that are tailored to needs, be it data centers, network providers, broadcast, harsh environments, sensor technology or specialty optical fibers

Fiber Optic competence since

1991

It takes partner who can guarantee short delivery times at the highest quality, made in Germany; a partner who delivers solutions for your requirements fast.

Experience from more than

1,5 Million

annual connector assemblies

It takes a portfolio that reaches much beyond mere fiber optic cabling, that is flexible and individually adaptable to your needs with our engineering background - no matter the properties of your product.

More than
3.500
 satisfied customers

It takes a fiber optic cable that provides service far beyond its connector ends. Our Sachsenkabel pulse smart-service platform offers:

- simple configuration/ordering of your cables
- 24/7 access to product specifications and test data
- API/OCI interface with your systems

Digital process optimization with more than
15.000
 online orders
*since market launch 2017

⋮ Only than will a cable become a Sachsenkabel
